## About-IAHHA

The Indo-US Academy of Health and Hospital Administration (IAHHA) is a premier institution specializing in Medical, Health and Hospital Administration and Continuous Medical Education programs for Healthcare professionals. IAHHA is founded by Sahayata Trust as a non-profit institution in association with Indo Us Hospital with support from number of distinguished professors of Healthcare and Medical Professionals from all over India and abroad.

The Academy's mission is to develop medical and healthcare professionals and focus on building and enhancing competencies and skills of medical and healthcare professionals. The Academy's activities consist of running high quality academic and management development programs, conferences, seminars, and conclaves, research studies and collaborative programs for medical and healthcare practitioners and institutions.

## INDO US Hospital

Indo-US Hospital was founded with the primary intention of serving patients who could not afford costly treatments. We have established this hospital based on our experience in handling a 20 bedded hospital which we had run for few years. This has helped us expand Indo-US into a 100 bed hospital with 3 Health Centres which provides state of the art services for various types of medical complications.

## Specialities

Indo-US hospital has a large number of speciality and super speciality departments which are present and staffed by the best staff who are highly trained in the best institutes across the country. Indo-US Hospitals also has a wide range of consulting specialists who visit our hospital on a regular basis and provide quality consultation for patients.

Indo-US Hospitals is equipped with the latest state of the art equipment which helps us treat various types of complex medical problems which occur in patients. We have a dedicated team of technicians who maintain all our facilities in perfect order to improve the standards of patient care.

## Healthcare Programs

### Affiliated to Osmania University

Advanced Post Graduate Diploma Programs in Healthcare are designed for the benefit of thousands of graduates with a view to train them for employment in the healthcare industry. These programs are of two years duration consisting of four semesters with theory and practical training and exams in first and second semesters and only practical training and practical examinations in the third and fourth semesters. Advanced PG Diplomas in Healthcare qualify for a job in hospitals, minor emergency centres, private labs, blood donor centres, Doctor's clinics, etc.

Syllabi of all the programs have been designed with utmost care by experienced University Faculty and Medical and Healthcare experts to ensure that the skills and knowledge that students acquire are parallel to those in demand in the workplace i.e., Hospitals. The syllabi of most of the Courses include training in Computers-information technology and soft skills comprising spoken English and communication.

Healthcare and Medical Professionals are in great demand in India and abroad. They play a very important role in helping the doctor to make an accurate diagnosis for treatment, cure and overall care of patients. More often than not, their role is both diagnostic and therapeutic. Healthcare professionals can advance to supervisory or management position in different departments of hospitals. They can also work as functional managers, consultants, administrators in healthcare administration.
